

Product description

The Camera & Soundbar Bracket is a flexible solution for mounting conferencing cameras, speaker bars, and all-in-one systems. It fits between the display's VESA pattern and any VESA-compatible mount. This makes it suitable for any screen size or mounting type.

The bracket works with both BalanceBox manual and motorized mounts. It can also be mounted directly to a wall or floor support. The tray is adjustable and can be positioned horizontally or vertically. Mount the bracket on the top, bottom, or side of the display - or even in multiple positions at once. Its adaptable mounting pattern ensures compatibility with a wide range of brands and devices.

Article number	Product Description
481A54001	BalanceBox® Camera & Soundbar Bracket
