

Product description

The BalanceBox Winx 4b is a robust whiteboard frame designed for use with e-Box III and e-Box IV wall mounts, as well as the e-Box IV Mobile Stand. Available for 75" and 86" displays, the frame and matching whiteboard panels provide a clean, integrated solution around the display.

The frame allows both height and depth adjustment of the whiteboards, ensuring precise alignment with the display. The whiteboards extend slightly beyond the display in both width and height for a consistent, finished appearance. A centrally positioned magnetic stopper is supplied as standard to prevent the whiteboard wings from folding in too far and potentially damaging the display.

Note: Whiteboard panels are not included with the Winx 4b and must be ordered separately. Please refer to the table below for the corresponding article numbers.
