

## Product description

The e-Box III Motorized Mobile Stand supports displays up to 98" and max. 140kg / 308 lb. The mount offers 65cm / 25.6" of smooth and fast height adjustment (50mm/sec) to ensure the display is positioned at the ideal height for the presenter and audience. The e-Box III features a box style frame allowing for extra storage, such as a mini-PC, to be neatly secured behind the display. (A lockable cover is available for increased security.) An integrated VESA 75/100 mounting pattern is included. The open design wheelbase allows easy access to the display screen and allows for wheelchair users to access it. Four sturdy 10cm / 4in double-caster wheels promote maneuverability and added stability over various flooring surfaces and through doorways. A range of accessories, such as laptop shelves, heavy duty wheels, and handlebars are available to increase usability.
