

e-Box III Wall Mount

Faster. Smarter. Stronger. Designed for Modern Learning & Collaboration.

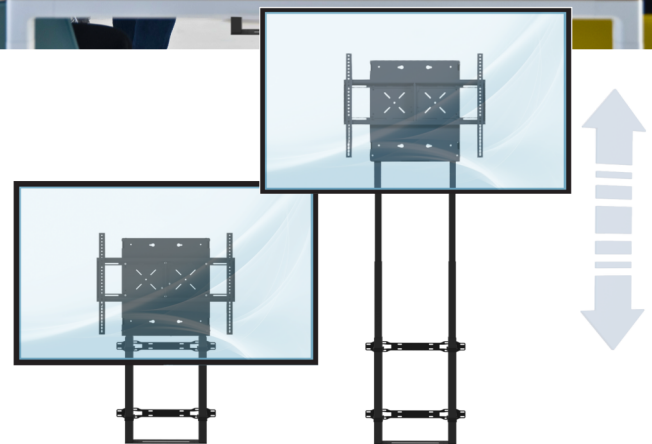

The e-Box® III Wall Mount is designed to meet the demands of today's professional and educational environments. As (interactive) displays grow larger and are used more intensively, reliable height adjustment becomes essential for accessibility, ergonomics, and smooth workflows.

The e-Box® III provides fast motorized adjustment and a wide 980 mm height range, allowing every user to position the screen exactly where they need it. Its reinforced dual-column frame supports large displays, ensuring stable and safe performance in any setting.

Installation is streamlined thanks to the simplified wall-mounting system and the included 800×600 VESA interface. The 50% more compact packaging reduces preparation time, storage needs, and on-site handling.

To create a complete solution, the e-Box® III seamlessly integrates with a broad range of accessories. This makes it easy to tailor the setup for classrooms, meeting rooms, training spaces, and hybrid environments.

Reliable performance. Faster adjustment. Smarter installation.
The e-Box® III Wall Mount delivers a future-ready height-adjustable system for every professional display application.
